## Degree Planning

1. As an incoming, returning, or transfer student, I need a course planner so I can optimize my degree path.
  - a. As a student, I need to know which elective courses meet general education requirements.
  - b. As a busy student, I need difficulty analyzer for my schedule so I don't get in over my head.
  - c. As a student with a busy schedule, I need to be able to specify which times I would like classes to be at.
  - d. As a student with specific interests, I need an application which allows me to search/filter courses based on course number, title, professor, and difficulty.
  - e. As a student, I need suggestions on which classes I should take to work on my degree.
  - f. As a new student, I would like to see sample degree plans to see options.
  - g. As a student with many interests, I would like to know how best to introduce secondary majors and additional minors into my schedule.
  - h. As a student, I need to be able to visualize the prerequisites for courses I wish to take.
2. As a user, I need to be able to log in to save and retrieve progress I have made on the application.
  - a. As a recurring user, I need a way to export my schedule that I created so I can see it outside of the application.
  - b. As a user with several devices, I'd like to access my degree plan on several devices.
  - c. As a user, I'd like to import course plans made by other people.
  - d. As a user, I'd like to be able to export my degree plan to share with my friends.
  - e. As a disorganized person, I need an application that will save my schedule between semesters so I don't lose track of my long term plan.

3. As a picky student, I need a professor evaluator so I know which professors will help me succeed.
